

World class weather solutions for the offshore industry

Reliable weather forecasting is vital for all businesses operating in the offshore industry, from exploration and development, through to construction and production. MeteoGroup Offshore provides market-leading metocean products and services through the application of innovative technology and operational planning tools.

Quality Service

With proven experience in weather forecasting for the offshore industry, MeteoGroup is recognised as the most accurate and innovative forecast supplier in the market.

We understand that all offshore operations are different and therefore we tailor the delivery of our forecasts to your needs. Our specialist team of maritime meteorologists are available 24/7/365 to provide monitoring and consultancy services.

Bespoke metocean forecasting services

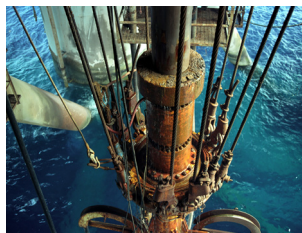

With over 25 years' experience in marine weather forecasting, MeteoGroup has gained an in-depth knowledge of the market, enabling us to develop forecasting solutions that directly respond to the industry's needs. Due to the complexity of this industry and the specialist knowledge required for offshore forecasting, we have formed MeteoGroup Offshore, a global division dedicated solely to the provision of metocean products and services.

We provide bespoke forecasting solutions for all offshore operations including:

- **Exploration and Production (Oil & Gas)**
- **Salvage**
- **Dredging**
- **Renewables**
- **Engineering and Facilities Solutions**
- **Heavy Lift**
- **Subsea**
- **Drilling**
- **Transport and Towing**
- **Survey**

Weather plays a critical role for the offshore industry, with accurate and reliable forecasting services benefiting businesses in all areas from safety to efficiency. Avoid unplanned downtime caused by unforeseen adverse weather, saving costs on materials and manpower. Increase efficiency and meet deadlines or ETAs. Contribute to a cleaner environment with reduced fuel consumption. Be prepared for potentially hazardous weather, avoiding damage to expensive equipment, reducing the risk of environmental disasters and preventing unsafe working conditions for personnel.

MeteoGroup Offshore's location-based forecasts include a wide range of metocean parameters tailored to your requirements and our innovative technology ensures reliable delivery and easy application. Whatever your needs, contact us to discuss how we can work together to benefit your business.
